

HD Powered Stairclimber

'The simple way to move heavy and awkward loads up and down stairs'

The HD Powered Stairclimber resembles a large classic sack truck and easily converts into stairclimber mode when you reach a set of steps with a heavy load.

With several handle options and toeplates the HD is tall and strong on the stairs and is perfect for lifting up to 330Kg by one person.

We also offer certified training on our climbers that includes:
Basic operation and Health & Safety best practices

Making heavy loads easy to move

One person operation

Lift up to 330 kg up stairs

Large puncture proof tyres

Two speed operation

Complete with braking system
